**RE: CIDRA GROUNDWATER CONTAMINATION SITE PROPOSED PLAN  
CONCURRENCE LETTER**

Dear Mr. Bosque:

The Puerto Rico Environmental Quality Board (PREQB) has completed its review of the aforementioned document. This Proposed Plan (PP) dated November, 2013, identifies the preferred alternative to address soil and groundwater contamination at the Cidra Groundwater Contamination Site. All PREQB's comments and concerns were addressed through several meetings and conference calls with USEPA and CDM Smith (USEPA contractor) representatives. Therefore, PREQB concurs with the preferred remedial alternative presented in the PP which fulfills the requirement of protecting the public health and the environment from potential risk at the site.

If you have any questions, please feel free to contact me at (787) 767-8181 ext. 3231 or Mr. Pascual E. Velázquez, Remedial Project Manager assigned to this case, at the same extension or by email at [yolandamartinez@jca.gobierno.pr](mailto:yolandamartinez@jca.gobierno.pr) or [pascualvelazquez@jca.gobierno.pr](mailto:pascualvelazquez@jca.gobierno.pr) respectively.

Cordially,

  
Yolanda Martínez Quesada

Manager  
Environmental Emergencies Response Area  
Puerto Rico Environmental Quality Board
